

CC&C Overview

A woman in a dark dress stands in the center of a meeting room, gesturing as she presents to a group of people seated around a large table. The room features two large screens on the wall. The entire image is overlaid with a semi-transparent blue filter.

June 2020

CC&C helps enterprise IT leaders succeed, in their workplaces and in their careers

People

Our associates have deep experience in large-scale enterprise IT as CIOs, Chief Architects, Heads of Strategy and Governance, Service Managers & Senior Consultants. No beginners will appear on your doorstep.

Expertise

Breadth and depth in IT leadership disciplines including Enterprise Architecture, Solution Architecture, Digital Transformation, IT Transformation, Governance, Innovation, Service Management, and new delivery paradigms

Leading from the Front

Ready to roll up our sleeves and deliver EA work, not just to be "ivory tower EA" consultants.

Global Reach

CC&C resources in North America, Europe, India, South East Asia (Singapore / Malaysia / Philippines / Vietnam), Australia and New Zealand.

Blue-Chip Clients

Recent customers for bulk corporate training include Ford, Accenture, E&Y, AMEX, Bank Of America, Eurofins, NTT Data and Ericsson. Consulting clients include Procter & Gamble, COSTCO, AXA, Wetspac and Vodafone.

Tool Expertise

Expert knowledge of SparxEA, BiZZdesign, Orbus iServer, SAG / Aris, Troux, Holocentric and other leading EA tools.

Capabilities

Training & Career Development

- Open Group Certification: TOGAF, IT4IT, ArchiMate, Biz Architecture
- BIAN Certification
- CC&C-developed courseware (Examples)
 - Architecture Fundamentals for Digital Age
 - Solution Architecture and others
- Career road mapping and mentoring
- EA tool training
- Training academy

Advisory

- EA organisation, EA practices and EA start-up/EA restart, EA tools consulting
- IT transformation based on IT4IT
 - Service platform mapping (Service Now)
- Shift-left help for IT Functions
- Bespoke consulting on IT strategy and architecture

Top Verticals

- Banking / Insurance
- Health
- Telco
- Business & IT Service Providers and Consulting Firms

Active EA tool partners

- Sparx EA
- BiZZdesign

Strategy

- POC / Pilot
- Implementation Strategy
- Handholding
- Resourcing

Competency Transformation

A person wearing glasses is sitting at a desk, working on a laptop. In the background, there is a large bar chart with a line graph overlaid on it. The bar chart has five bars of increasing height, with values 20, 40, 60, 80, and 100. The line graph shows an upward trend, starting at 20 and ending at 100. The overall scene is dimly lit, with a teal color scheme.

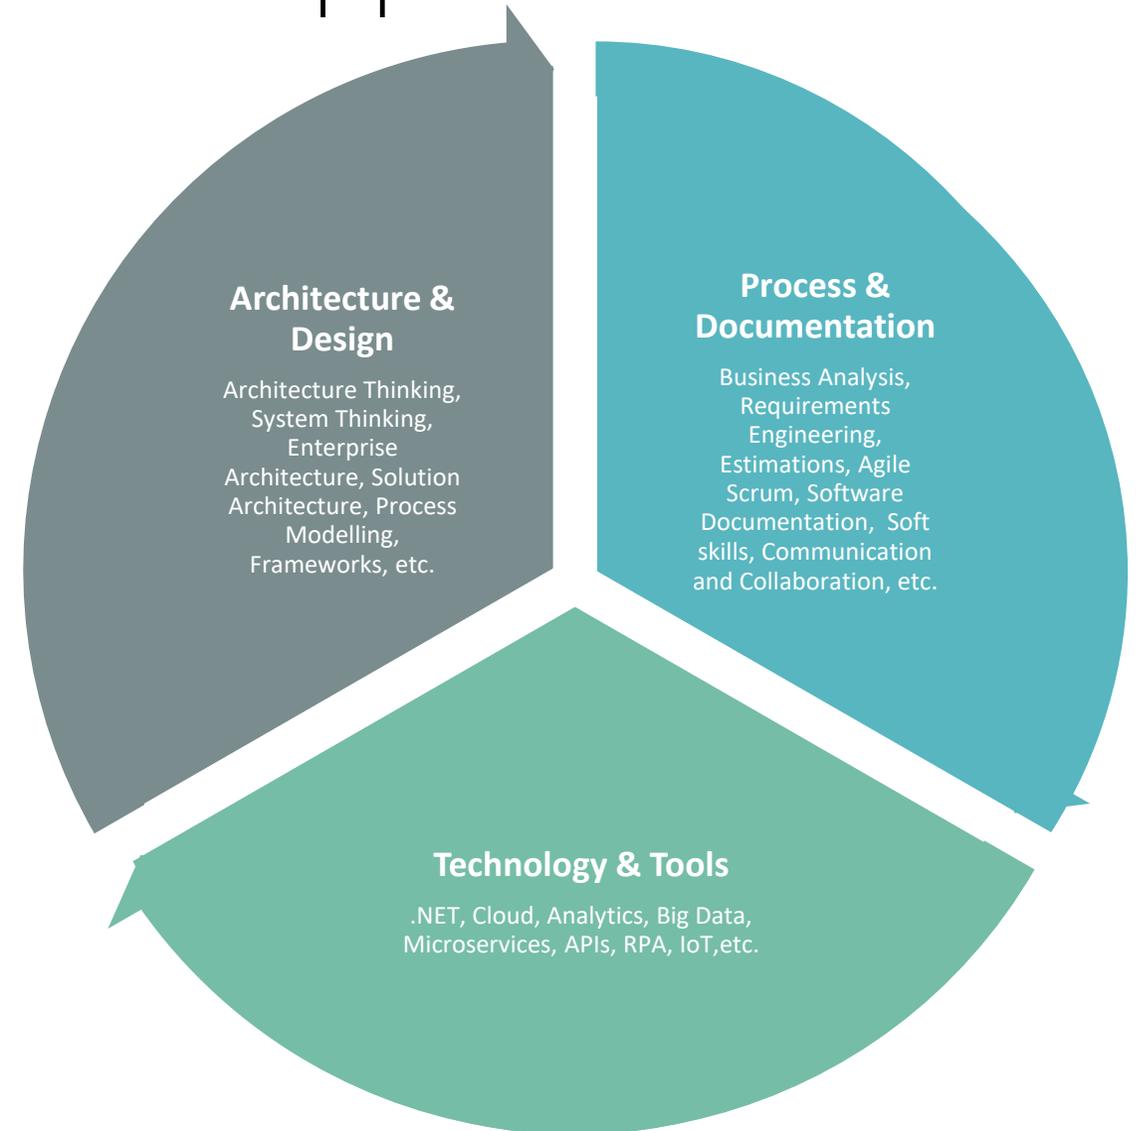

CC&C is a full-service provide for developing and mentoring architecture teams and individual practitioners

June 2020

Competency Transformation Support

CC&C provides a full range of career development support for teams or individuals, ranging from one-off training to complete training academy services

Our approach to competency transformation rests on three themes

Architecture Skills Framework

- We base our understanding of architecture career development on a competency levels and EA skills matrix based on *The Open Group* standard.

Level	Achievement	Description	© The Open Group
1	Background	Not a required skill, though should be able to define and manage skill if required.	
2	Awareness	Understands the background, issues, and implications sufficiently to be able to understand how to proceed further and advise client accordingly.	
3	Knowledge	Detailed knowledge of subject area and capable of providing professional advice and guidance. Ability to integrate capability into architecture design.	
4	Expert	Extensive and substantial practical experience and applied knowledge on the subject.	

Enterprise Architecture Skills Matrix

A photograph of two business people shaking hands in an office setting. The person on the left is wearing a dark pinstriped suit jacket, and the person on the right is wearing a light-colored dress shirt. The background is slightly blurred, showing office equipment like a computer monitor and a desk.

Connecting Teams

A CC&C speciality is helping India-based back office teams connect, communicate and collaborate with the head office

June 2020

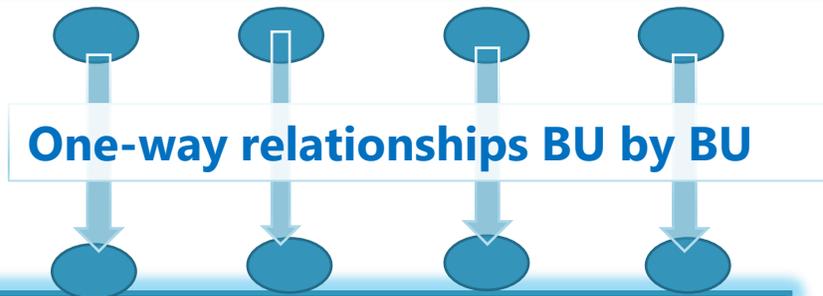

CC&C is uniquely positioned to link Head Office leadership to Indian back office teams

(based on our study of our multinational clients with Indian back offices)

Current state

Front line business units

- Control strategy
- Provide only necessary solution-level information
- Send work orders one by one

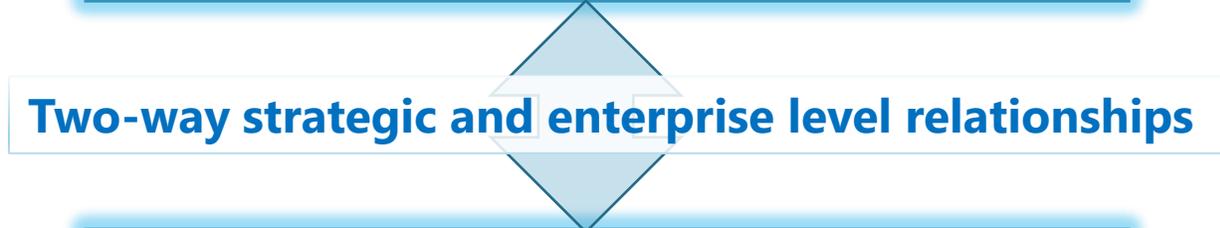

Back office operations

- Unaware / uninterested in strategy & architecture
- Do not fully appreciate enterprise level business value or context
- Fulfil work orders one by one

Desired target state

Front line business units

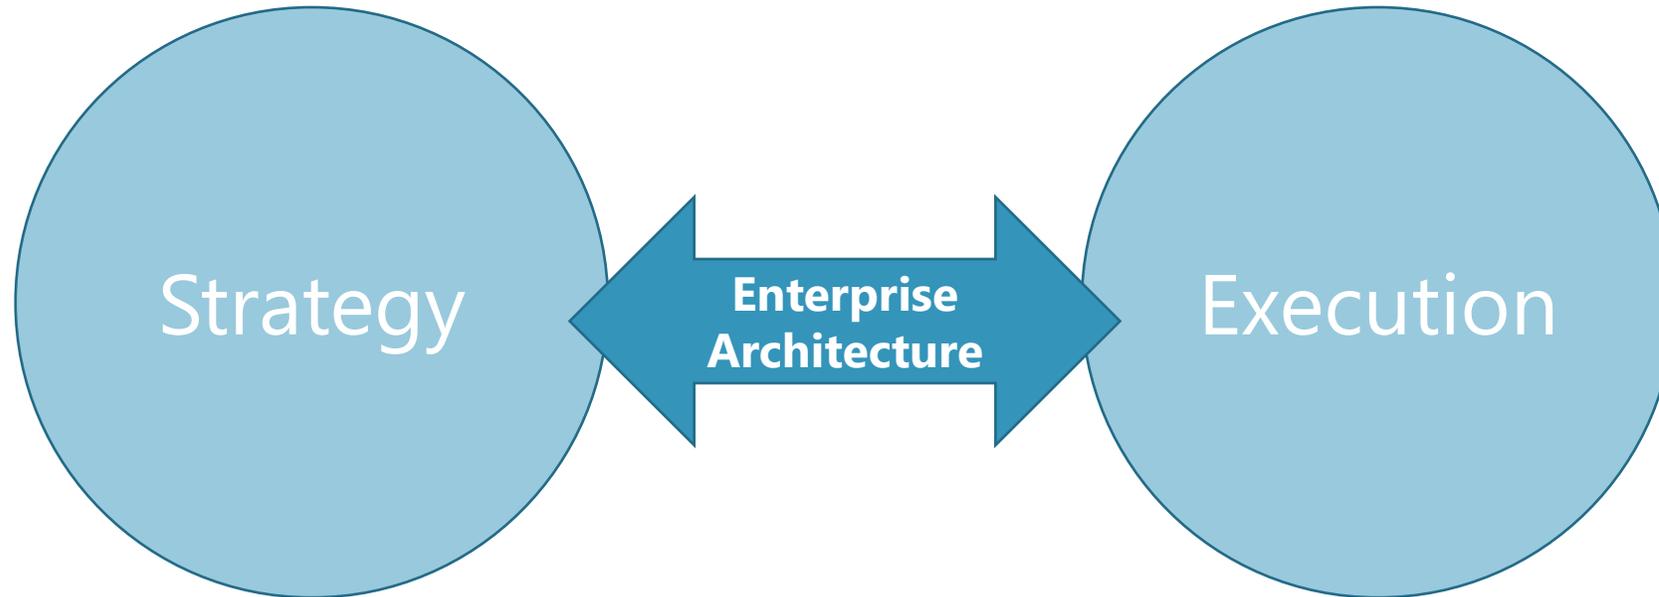

- Communicate and collaborate in strategy and EA
- Provide EA information and seeks input
- Involve back office teams in strategic programs

Back office operations

- Provide valuable inputs to strategy and architecture
- Improve productivity through linking solutions, creating repositories and reusing components
- Enhanced vertical and horizontal alignment

What's missing?

A strong, **collaborative** Enterprise Architecture practice helps bridge the gap between strategy and execution.

CC&C Training Portfolio

CC&C architecture training and consulting has been helping Fortune 500 companies succeed from more than 18 years

June 2020

CC&C Training Includes:

Open Group Certification Training

- TOGAF®
- IT4IT™
- ArchiMate®
- TOGAF® Biz Architecture

BIAN Foundation Training

Our instructors are all experienced professionals who bring hands-on, real-world experience to the classroom.

CC&C was a pioneer in TOGAF training and has been a Gold Member of The Open Group for over a decade.

We are the leading TOGAF certification trainer in India, and have trained about 40 percent of all certified IT4IT practitioners globally.

Executive and Management Training and Seminars

- Introduction to Business Transformation using Enterprise Architecture
- Executive Overview of Enterprise Architecture and TOGAF®
- Introduction to IT4IT™
- Introduction to Cloud Computing
- Introduction to DevOps
- Introduction to Digital Transformation
- Bespoke and individual training and coaching

Other Technical Training

- Solution Architecture
- Enterprise Architecture for the Practitioner
- EA Tools and Modelling (Sparx EA, BiZZdesign)
- Cloud Computing Solution Architecture
- Architecture for the Internet of Things
- Big Data and Analytics
- Microservices and API

CC&C can create bespoke and tailored training on most architecture, IT strategy, IT governance and emerging technology topics
